Presented by Gail Lecky, volunteer

This past year we added a number of features to the site including: Awards, Volunteers, success stories and more. Kendra is the only one who sends me things to post and I can usually do that within the day of receiving the requests. I estimate that that site takes about 10-15 hours a year at this time to maintain.

The squadrons keep their own sites up so I have not had any requests from them for quite a while.

My suggestions are:

1. Add the ACL minutes, AGM Reports etc. to the site, these should be public anyway and they would be easily accessible to the league members. This would also ensure that the League puts in place the need to have reports typed up and handed in as well as available electronically and can be a help for keeping historical information.
2. In the same vein you can add policies and by-laws to the website
3. When sending or taking pictures the website requirement is 1024pixels by 768pixels.
